# Signage

We design, manufacture and install many types of signs using a wide range of materials and techniques across a wide variety of applications.

From simple on-site project signboards through to signature hotel and project signage.

We specialise in property developments and hotel/resort signage integrating continuity, image and function in all our signage work.

Materials used include Stainless Steel, Wood, Acrylic, Plaswood, Glass, Bronze, Brass, Resin and Zinc.

# Signage continued

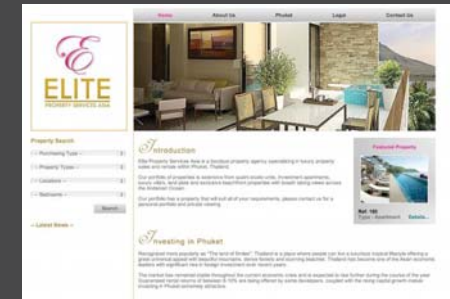

# Web and SEO

It's important to make sure that your website is quick to load, easy to navigate and information is clearly and uniformly laid out on every page.

With so much competition on the web, it's important to make sure that your website is as visible as possible to search engines such as Google and Yahoo.

Your website has to be optimized so that search engines can 'see' and list your website on their search results page.

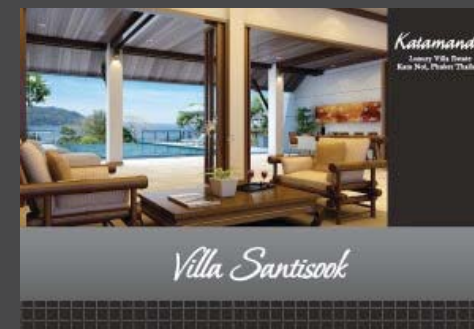

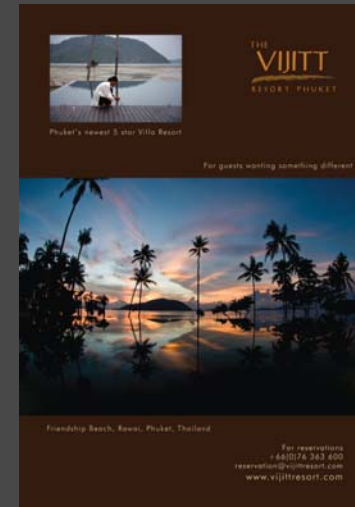

Southern Media provide web design, standards compliant page coding, website optimisation (SEO), maintenance, hosting, email management, e-newsletters and e-footers. Designed with the user experience in mind.

# Design

We design and layout all types of artwork for brochures, name cards, sales pack folders and inserts, movies, slideshows, billboards, postcards, flyers, banners, posters and ad placements for magazines.

If you'd like to restyle and freshen up your website we can help. We develop and create corporate designs across all collateral.

# Billboards

Southern Media offers billboards for rent in strategic locations around Phuket.

By using strategic billboard signage, we can help you maximise awareness of your project, product or services.

Billboard advertising is a low-cost and effective way of reinforcing your advertising message to thousands, all day every day.

Can't find one you're looking for? We also build billboards and signs to order!

# Services

Artwork design studio specialising in all print and digital media and corporate identity.

High quality offset printing indoor poster printing and large format vinyl printing.

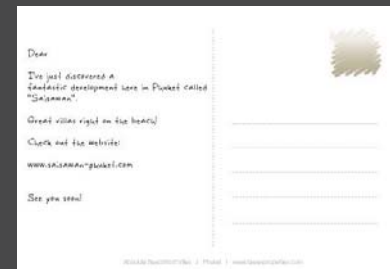

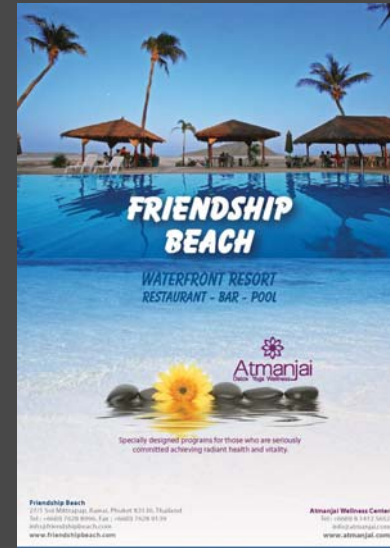

Print advertising representation, including copy placement and management.

CD/DVD replication and printing.

Promotional USB Thumb Drives printed with your logo and/or message.

3D architectural rendering movies and still images.

Bespoke photography, full photographic services and high quality interactive 360° virtual tours.

## 3D Rendering

We can create beautiful 3D architectural renderings and movies from your architects CAD files. By creating beautiful 3D movies and lifelike photographic stills we can help you sell your property project off plan or hotel rooms by giving your potential clients a realistic appreciation of what your finished project will look like.

The high resolution images created are perfect to use across all advertising mediums such as brochures, outdoor media and websites.

- 3D animation movies for DVD and Web
- 3D still renderings

## 3D Rendering

We can create beautiful 3D architectural renderings and movies from your architects CAD files. By creating beautiful 3D movies and lifelike photographic stills we can help you sell your property project off plan or hotel rooms by giving your potential clients a realistic appreciation of what your finished project will look like.
